## The story of the bridge

After 14 years, the bridge was finished in 1883. The bridge connects New York and Brooklyn. It was considered the biggest bridge in the world.

Many people were afraid that the bridge could fall down..

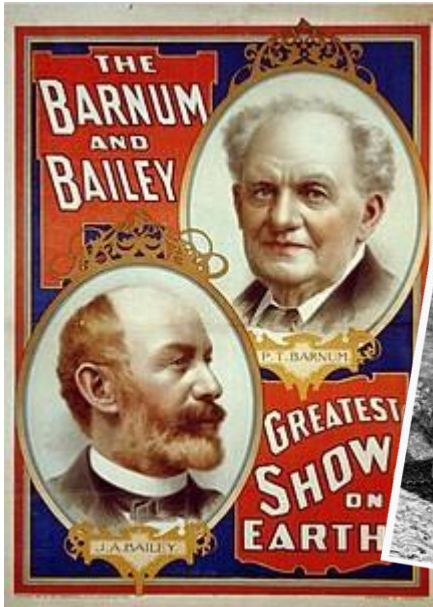

The bridge is amazing!

But is the bridge strong enough?

The New Yorkers were worried. Then, the famous circus director **Phin as T. Barnum** had an idea!

I have the heaviest \*elephant in the world. His name is Jumbo!

Why not have 21 elephants cross the bridge?

It was a great success! The bridge supported the weight of 21 elephants! The 21 elephants crossed the bridge without a problem. Since that day, millions of New Yorkers have used the bridge without fear.

It's your turn! Here is the challenge.

Build a paper bridge that is 20 cm. The bridge should support the greatest number of metal washers.
