

Secret Code: Make a secret code machine.

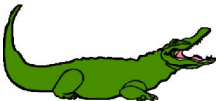

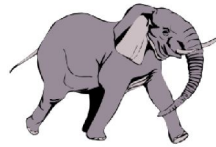

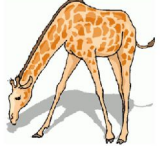

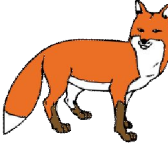

Print page 3 on card. Print page 4 on card, you may use a different colour. Cut out the two discs.

Put the small disc on the big disc and the secret code machine is ready!

Use a split pin or two magnets in the centre to pin the small disc on the big disc.

I choose a letter on the big disc and I turned the small disc to find the same letter. Then my secret code was ready.

I wrote this using my secret code:

			
XNOXORUGJ	JGJFBIQM	ZJANI	MUKJN
			
KUNISSJ	DIQKINOO	SOH	FOQL
			
SNOK	OEG	FINNOM	VIKPIN

Can you crack my code?

Which letter from the big disc did I choose?

Can you write your name using the same secret code? Can you write the date using the same secret code?

Create your own secret code:

Choose a letter on the big disc and turn the small disc to find the same letter. Your secret code is ready.
