## Cat and mouse

Each cat has a toy mouse: the red cat has a red toy mouse, the blue cat has a blue toy mouse, the green cat has a green toy mouse, the yellow cat has a yellow toy mouse and the pink cat has a pink toy mouse.
The cats move according to these instructions: $\leftarrow$ left, $\rightarrow$ right, $\uparrow u p, \downarrow$ down. The different paths mustn't cross. Each cat is going to catch its toy mouse.

Write the instructions here:
