

Projet TraAM "press reading and writing challenge"

Etape 5 : Opération « silence, on lit la presse », sélection d'articles, réécriture, réalisation de la UNE, notation et valorisation des productions

1) Ré-explication des objectifs aux élèves

Objectif général : rendre des informations en anglais accessibles à des élèves de 5^e en leur donnant envie de lire la presse sous forme de jeu concours

Jeu concours : 4 classes de 3^e de 2 établissements éloignés géographiquement créent plusieurs UNES numériques de journaux à partir des articles de la BRNE Speakeasy News (travail réalisé par groupe de 3 élèves). Après une pré-sélection réalisée par les deux professeurs de ces classes selon les critères ci-dessous, des élèves de 5^e (sensibilisés pour l'occasion au décodage des fake news) devront noter les productions des élèves de 3^e en fonction de critères précis mentionnés ci-dessous également.

Consignes :

- Consacrer 15 minutes chaque séance du cours d'anglais à la lecture des articles de Speakeasy News
- Lire tous les articles de décembre 2017 à mars 2018 sur le site [Speakeasy News](http://speakeasynews.com)
- Choisir 3 articles pour chaque thématique (histoire, culture, société)
- Pour chaque article sélectionné ;
 - Reformuler un titre
 - Réaliser un résumé de l'article en 2 lignes avec des mots simples sans plagiat
 - Créer une liste lexicale pour aider les élèves à comprendre le résumé
- Ajouter au moins une image par thématique (image avec modification et réutilisation autorisée)
- Remplacer un des 9 articles par un article inventé qui devra respecter les codes des fake news

Les "fake news", qui ne sont pas seulement de "fausses informations", sont utilisées comme une arme à des fins de propagande, de complot ou des fins commerciales. Ce sont des mensonges délibérés destinés à tromper l'opinion. Or, dans ce projet, nous n'avons pas voulu encourager les élèves en ce sens c'est pourquoi nous avons davantage incité les élèves à travailler sur la forme et moins sur le fond car nous ne souhaitons pas les encourager à rédiger des informations malveillantes.
