

Défi langues 2021-2022 géométrie – ANGLAIS – CE2

The house is really beautiful. I want to draw a plan. Can you help me ?
I have already drawn the façade.

Défi :

Can you divide the façade so that we have exactly
5 triangles, 2 squares and 2 rectangles ?

Restitution :

« Here are the triangles,
here are the squares
and the two rectangles! »
