

TRIANGLES AND AGES

Look at these triangles:

Can you see the four big triangles?

Put your finger in the big blue triangle!

How many small triangles can you see in the big blue triangle?

Put your finger in the big yellow triangle!

How many small triangles can you see in the big yellow triangle?

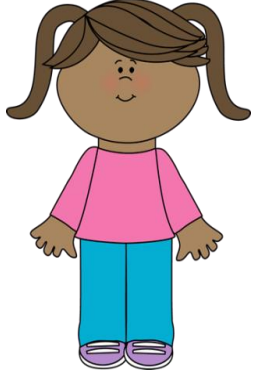

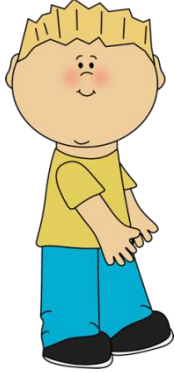

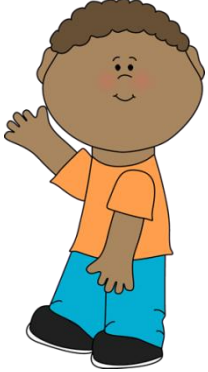

Put your finger in the big red triangle!

How many small triangles can you see in the big red triangle?

Put your finger in the big green triangle!

How many small triangles can you see in the big green triangle?

Now look at these children:

				
Nelly	Wendy	Sally	Mary	Kelly
5	10	8	6	3
				
Tim	Ted	Jim	Bob	Tom
7	2	4	9	1

Put the children in the small triangles so that the ages in each big triangle add up to twenty!

Write their names and ages in the triangles.
