

DEFI MATHS GS – ANGLAIS – DEFI PLUS : THINGS

DOMINOES

- Les règles du jeu sont les mêmes qu'en français.
- Arrange the class into groups of three or four.
- Ask them to mix all their cards together face down on their tables.
- Each child takes seven dominoes.
 - *"One, two, three, four, five, six, seven."* Count with them. (Ils ne peuvent pas apprendre tous ces nombres en une séance, prévoir deux étapes *"One, two, three."* Puis *"Four, five, six, seven"* par exemple.)
- The remaining cards are left face down on one side of the table.
- The oldest child begins by laying down the first domino on the table, the next child tries to place one of his or her cards down on either side of the first one.
 - *"It's your turn."* En mimant l'action de poser un domino face vers les joueurs.
- The game continues with each child laying down a domino in turn.
 - *"Fairy and fairy:Yes!"* ou alors *"Fairy and shoes:No!"*
- If one of the children cannot lay down a domino, they must take another one from the remaining pack on the table and wait until their next turn before laying down another domino.
 - *"Take one from here."* En désignant la pioche.
- The winner is the first child to use up all the dominoes in his or her hand.
- *"You won!"*
